Front End Development internship at Sagnik Bose

Cover letter

Why should you be hired for this role?

💡 **See tips to answer this question**   ⌃

- **Highlight your strengths** - mention any experience (internship/job experience or extra-curricular activities), accomplishments, skills that are relevant to the role.
- **Show enthusiasm** - mention what excites you about this role and the company. You can go through their website/ social media to understand what interests you.
- **Do not copy answers** from the internet.

The job requirements states that you are looking for someone who has knowledge about front end development. I have intermediate level of knowledge about HTML,CSS,BOOTSTRAP. I am having beginner level knowledge on backend part. In college group project I have done all the frontend part because of that project I have good knowledge.

Availability

Are you available for 4 months, starting immediately, for a work from home internship? If not, what is the time period you are available for and the earliest date you can start this internship on?

I am available for part time as I'm college student but from 27 march to 2 april I am having Exams and then exams will be in the month of June. So during exams time I will be not available.

Assessment

Q1. if you get selected, will you work with us for a stipend or to gain real-world experience?

If you want to share any documents or files, please upload it on **Google Drive** or **Dropbox** and paste the public link in the answer.

I'm working for both as stipend will help to pay fees of courses, with the help of stipend I will be able to gain more skills/knowledge further and as it is my first internship it will help to gain the work experience and will improve my skills.
